Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1 and 4-8, drawn to a hair growth method which comprises transplanting a composition containing (a) dermal papillae or dermal papilla cells; and (b) epidermal tissue or epidermal cells to an incised epidermal site.

Group II, claim(s) 2, 4-12, 23 and 24, drawn to a hair growth method which comprises transplanting a composition containing (a) dermal papillae or dermal papilla cells; and (c) tissue which consists of hair follicles or cells thereof to an incised epidermal site.

Group III, claim(s) 3-12, 23 and 24, drawn to a hair growth method which comprises transplanting a composition containing (a) dermal papillae or dermal papilla cells; (b) epidermal tissue or epidermal cells to an incised epidermal site; and (c) tissue which consists of hair follicles or cells thereof to an incised epidermal site.

Group IV, claim(s) 13, and 16-18, drawn to a composition containing the following components: (a) dermal papillae or dermal papilla cells; and (b) epidermal tissue or epidermal cells.

Group V, claim(s) 14, 16-22, 25 and 26, drawn to a composition containing the following components: (a) dermal papillae or dermal papilla cells; and (c) tissue which consists of hair follicles or cells thereof.

Group VI, claim(s) 15-22, 25 and 26, drawn to a composition containing the following components: (a) dermal papillae or dermal papilla cells; (b) epidermal tissue or epidermal cells to an incised epidermal site; and (c) tissue which consists of hair follicles or cells thereof.

2. The inventions listed as Groups I through VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The technical feature common to the groups is a composition containing dermal papillae or dermal papilla cells. However, Oliver (J. Embryol. Exp. Morph. 1966, 15:331-347; cited in IDS dated September 8, 2006) teaches a composition comprising dermal papilla (pp. 335-336, sections ii-iv). Therefore, the groups set forth above do not contain or share a special technical feature that makes a contribution over the prior art.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sheridan R. MacAuley whose telephone number is (571) 270-3056. The examiner can normally be reached on Mon-Thurs, 7:30AM-5:00PM EST, alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Wityshyn can be reached on (571) 272-0926. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
